RE: Notice of Safety Recall

Dear Cornhusker Trailer dealer,

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Truck Equipment Service Company has decided that a defect which relates to motor vehicle safety exists in certain 'Cornhusker' grain trailers with CBX Series Suspensions front SAF-HOLLAND, Inc.

Description of Defect:

(33) 'Cornhusker' trailers that included CBX Series Suspensions are defective, resulting from possible cracks at the interface between the bolt head and the body of the bolt. The presence of a crack could result in separation of the bolt head and failure of a pivot bolt on one side of the axle/suspension assembly, resulting in the trailer becoming misaligned behind the tractor which will be immediately apparent to the driver, increasing the risk of a crash.

A detailed list of the 'Cornhusker' trailers that included CBX Series Suspensions affected by this recall that our records show were shipped or delivered to your location between 10/01/2013 and 12/31/2013 is attached for your review.

SAF-Holland, as the original equipment manufacturer, will oversee the recall and replacement of the defective pivot bolts. Please contact SAF-Holland to locate a authorized repair shop and to coordinate the replacement of the pivot bolts. They will provide the repair shops with parts, instructions and billing information to SAF-Holland. Contact SAF-Holland and refer to their recall #14E-024:
