To: All Cadillac Dealers

Attention: General Manager, Service Advisor, Service Manager, Parts and Service Director, Parts Manager, Used Vehicle Sales Manager and Warranty Administrator

We originally expected to have parts for the 2006-2007 model year Cadillac STS-V vehicles the week of May 18, 2015. Unfortunately, the part did not pass validation testing and had to be redesigned.

Validation testing of the new design part is in process and, once approved, the supplier will begin production. We expect to have an adequate supply of STS-V parts to begin repairing vehicles by late August.

We apologize for any problems this delay has caused and appreciate your understanding.
