VEHICLE SAFETY DEFECT NOTIFICATION

NHTSA Recall Campaign # 14V-585 2014-418

Dear Valued Jayco Dealer:

This letter is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

DEFECT INVOLVED

Jayco has decided that a defect which relates to motor vehicle safety exists on certain 2015 Jay Flight 264BHW (7V) and 267BHSW (7W) travel trailers manufactured April 23, 2014 through June 04, 2014. The affected travel trailers were built with the roof air conditioner option that removed the standard roof vent, creating a void of proper air ventilation when cooking on the gas range.

The remedy for the affected vehicles is to replace the existing kitchen window (non-opening) with a window that has a horizontal slide to allow venting while using the gas range. All pertinent documents to this recall are on file on Jayco Partners Service & Parts Tab.

Our records show the following affected travel trailers are currently in your inventory:
