**STOP SALE NOTICE: 2014 NSS300/A and 2014 Grom125**

Dear Honda Powersports Dealer:

Honda is launching a Safety Recall of 2014 model year NSS300/A scooters and Grom125 motorcycles to replace the fuel pump. Honda has determined that a manufacturing defect within the fuel pump can cause the pump to seize, resulting in a loss of fuel pressure. Loss of fuel pressure will cause the engine to A) not start or B) stall while riding. An engine that stalls while riding increases the risk of a crash.

Effective immediately, YOU MUST NOT SELL any NEW or USED 2014 NSS300/A or Grom125, affected by this recall, until it is repaired according to the Service Bulletin procedure.

**NOTE: Your dealership will be violating Federal Law, violating your sales and service agreement, and risking chargeback of sales incentives if you sell any affected products listed in this notice prior to performing the repair procedure. If you have any questions about your responsibility, please refer to this link:**
