IMPORTANT SAFETY RECALL
NHTSA Recall Campaign # 14V-697

Name

City, State Zip

Dear Valued Jayco Dealer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Defect Involved

Jayco has decided that a defect which relates to motor vehicle safety exists in certain Model Year 2015 Jay Flight Travel Trailers manufactured July 10, 2014 through October 24, 2014 with the Elite Package Option.

Jayco has determined that certain vehicles fail to conform to the requirements of Federal Motor Vehicle Safety Standard No. 110, "Tire selection and rims and motor home/recreation vehicle trailer load carrying capacity information for motor vehicles with a GVWR of 4,536 kilograms (10,000 pounds) or less". Due to omission of data to calculate the weight of the trailer, the affected travel trailers, have incorrect information printed on the cargo carrying capacity (CCC) Label. This error creates the possibility that the vehicle could be loaded with the amount of cargo as stated on the incorrect labels and result in the vehicle being overloaded, exceeding the Gross Vehicle Weight Rating. Overloading may lead to issues with drivability and premature tire wear and subsequent tire failure of the fifth wheel, increasing the risk of personal injury or property damage.

The corrected labels are included with the retail Recall Notification Letter. Customers may replace the labels or take to a Jayco Dealer to perform this recall at no charge. Our records show the following 2015 Jay Flight Travel Trailer/s are affected by this recall and are currently part of the inventory at your dealership:
