November 3, 2014

TO: All U.S. Ford and Lincoln Dealers

SUBJECT: DEMONSTRATION / DELIVERY HOLD Advance Notice – Safety Recall 14S23 Certain 2015 Model Year Transit Vehicles with Diesel Engine Install Fuel Filter Bracket Reinforcement

AFFECTED VEHICLES

Vehicle	Model Year	Assembly Plant	Build Dates
Transit	2015	Kansas City	July 28, 2014 through August 7, 2014

Ford Motor Company is issuing a recall for a small number (92 total vehicles) of 2015 model year vehicles listed above. Affected vehicles are identified in OASIS. In addition, for a list of vehicles assigned to your dealership, visit <u>https://web.fsavinlists.dealerconnection.com</u>. This information will be available on November 3, 2014.

REASON FOR THIS SAFETY RECALL

In some of the affected vehicles, the fuel filter reinforcement plate was not installed on the crossmember during vehicle assembly. This may result in the fuel filter separating from the cross-member, and an engine stall due to fuel starvation. An engine stall without warning can increase the risk of crash.

SERVICE ACTION

DO NOT DEMONSTRATE OR DELIVER any of the affected vehicles involved in this safety recall. It is anticipated that additional repair and part availability information will be provided to dealers by mid-November 2014.

Note: In the interim period, if a vehicle arrives at your dealership with a fuel filter that has separated from the cross-member, please contact the Special Service Support Center.

CUSTOMER NOTIFICATION

Owners of record will be notified via first-class mail after repair instructions and parts ordering information have been provided to dealers.

PLEASE NOTE:

Federal law requires dealers to complete this recall service before a new vehicle is delivered to the buyer or lessee. Violation of this requirement by a dealer could result in a civil penalty of up to \$7,000 per vehicle. Correct all vehicles in your new vehicle inventory prior to delivery.
