(BH) - Stop Lamp Switch Replacement/ECU Reprogramming (TSB# 15-
01-013)**

Hyundai Motor America is conducting Recall Campaign 125 on certain 3.8L 2009 – 2011 Genesis model vehicles to inspect (and if necessary replace) the stop lamp switch, replace the diode with a joint connector, and reprogram the ECU.

Technical Service Bulletin #15-01-013 (Recall 125) provides the details of the recall and the service procedure.

In order to identify only those vehicles affected by Recall Campaign 125, it will be necessary to access Hyundai Motor America's "Warranty Vehicle Information" screen via WEBDCS before starting the repair. The "Warranty Vehicle Information" screen will identify affected vehicles with an open Recall Campaign 125.

A listing of VEHICLES is also located on **WEBDCS, SERVICE** tab, select **INFORMATION**, and select **UNCOMPLETED CAMPAIGN VIN LISTING – RETAILED.**

TSB #15-01-013 will be available on Hyundai's Service Website on March 16, 2015. It contains instructions on performing the service and submitting the recall claim.

An initial shipment of Stop Lamp Kits will begin shipping on March 17, 2015 to dealers in their weekly parts shipment. Additional parts can be ordered following the standard parts ordering procedure.

Customer notification letters will begin mailing the week of March 23, 2015.

It is IMPORTANT TO SUBMIT A RECALL CAMPAIGN CLAIM FOR EACH VEHICLE SERVICED so your dealership can be compensated for your work and Hyundai can maintain accurate records of campaign completions.
