UPDATE: Takata Recalls Front Passenger Air Bag Inflator Owner Renotifications

As we work through the Takata recall process, we will continue to mail owner re-notification letters to urge additional customers to schedule an appointment for the repair. This notification process is being prioritized in phases, based on parts supply, age of the inflator in the vehicle (oldest first), and geographic registration history of the vehicle.

The next group of renotification letters will include the following affected vehicles, based on recently refreshed owner information from IHS (Polk):

WQP51 & WQR53:
2003-2008 Legacy
2003-2008 Outback
2004-2005 Impreza (including WRX)

Approximately 137,000 renotifications will be mailed, nationally. Refreshed affected VIN lists have been distributed to each Region/Zone Office, which include the latest owner registration data for all open Takata recalls.

As always, please be sure to review the latest version of the Product Campaign Bulletin as found on STIS for the installation instructions and detailed parts information.

Thank you.
