

Dear Valued Baby Trend Customer:

At Baby Trend safety is our number one priority and we design, engineer, and test all Baby Trend products with that in mind. The National Highway Traffic Safety Administration (NHTSA) determined, through its own investigation, that certain AmSafe Signature, QT harness buckles on some Graco car seats, when engaged, may not easily unlatch. Based on the NHTSA investigation and because we stand by our number one priority of safety, Baby Trend is voluntarily recalling similar buckles used on the TrendZ Fastback 3-in-1 car seat.

Only the following two Models are involved:

TrendZ Fastback 3-in-1 Car Seat by Baby Trend

Models: FB60070 & FB60408

These seats were produced between 10/2011-7/2013

As noted, these two select models use a harness crotch buckle which may become resistant to unlatching over time, due to exposure to various contaminants (like food and drinks) that are present in everyday use of the car seat. This condition may make it difficult to remove a child from the vehicle. There is no such risk if the buckle is functioning normally. These car seats meet all requirements for crash safety under the federal FMVSS 213 safety standard. If you are not experiencing difficulty unlatching the buckle, you can continue to use the seat to safely transport your child.

Most importantly, Baby Trend has received zero reports of injuries to children in connection with the use of this buckle on the seats that are subject to this recall.

Baby Trend is providing customers who own the TrendZ Fastback 3-in-1 Car Seat (Models: FB60070 & FB60408) a remedy kit, free of charge. The remedy kit includes a replacement buckle and instructions on how to install the new buckle. The remedy kit can be ordered by calling Baby Trend customer service at 1-800-328-7363 and will start to ship the week of May 12th. **Please do not return the car seats to retailers.** If you are experiencing difficulty unlatching your buckle before your remedy kit arrives, cleaning

the buckle should alleviate any difficulty. We sincerely apologize for any inconvenience or concern this matter has caused you and your family.

Baby Trend is conducting this voluntary recall in coordination with the U.S National Highway Traffic Safety Administration ("NHTSA").
