Re: Aluminum J-Hook Holder Brackets

To Whom It May Concern:

This notice is being sent in accordance with the requirements of the National Traffic Motor Vehicle Safety Act.

Great Dane Trailers has decided that a defect which relates to motor vehicle safety exists in certain flatbed trailers built with J-hook holder brackets mounted on each side of the trailer. The brackets, used for storing the aluminum J-hook cargo restraint plates, may break and detach from the trailer along with the cargo restraint plates stored on the bracket. This failure could lead to the bracket and/or plates being run over by the trailer or other vehicle resulting in loss of control, damage or a crash.

To address and remedy this defect Great Dane Trailers will replace all J-Hook Holder Brackets with a new design bracket. You should immediately inspect the brackets installed on the listed trailer/s and then contact your nearest Great Dane Branch or Dealer service facility to arrange for replacement of all old design brackets with the new design. The repairs should take approximately one hour to perform.

If you conclude that Great Dane Trailers has not enabled you to remedy this condition without charge and/or in a reasonable time, a complaint may be submitted to the:

Administrator
National Highway Safety Administration
1200 New Jersey Avenue SE
Washington, DC 20590

-or-

Call the toll free Vehicle Safety Hotline: 1-888-327-4236; (TTY: 800-424-9153 or go to <http://www.safercar.gov>)
