Dear << Owner Name>>:

This safety recall notice is sent to you in accordance with the requirements of the United States National Traffic and Motor Vehicle Safety Act.

Reason for This Recall

CrossRoads has decided that a defect which relates to motor vehicle safety exists in certain Redwood and Rushmore 5th wheel travel trailers manufactured between March 08, 2013 and February 27, 2014. Other trailer models manufactured by CrossRoads during this time period are not included in this recall.

All of the travel trailers subject to this recall campaign are equipped with a Frigidaire Microwave Model CFMV152CLB or Model CFMV154CLS. The microwaves in these travel trailers may self-start and begin heating while unattended. If the microwave has something stored in the cavity and the microwave begins heating the contents while unattended, there exists a risk of smoke or fire inside the microwave.

What We Will Do

CrossRoads will contact Frigidaire on your behalf to set up a service call to come to you to repair your microwave. The remedy is to repair the membrane/keypad component. This defect will be corrected at no expense to you, the owner. The repair should take approximately 30 minutes to complete.

What You Should Do

Please remove all materials from inside of your microwave immediately. You may continue to use the microwave if nothing is stored in it per manufacturer's instructions.

You are to contact CrossRoads at 1-855-226-7496 to make an appointment to have your microwave serviced by Frigidaire. You will need to provide the following information on the phone call:

- VIN of your Travel Trailer
- Microwave model and serial number
- Name and address(where you want your unit serviced), and phone number
