

IMPORTANT SAFETY RECALL

July 2014

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect, which relates to motor vehicle safety, exists in your 2008 model year Chevrolet Malibu, Pontiac G6, or Saturn Aura vehicles equipped with electric power steering (EPS). As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- This notice applies to your GM vehicle VIN: _____.
- Your vehicle is involved in GM safety recall 14117.
- Schedule an appointment with your GM dealer.
- This service will be performed for you at **no charge**.
- If the warning message is displayed on the Driver Information Center and a chime sounds, the power steering will be lost and the vehicle will revert to a manual steering mode, which may require greater driver effort at low vehicle speeds. The power steering may return the next time the vehicle is started; however, you will still need to have your vehicle serviced when parts are available.

Why is your vehicle being recalled?

Your vehicle equipped with EPS may experience a sudden loss of power steering assist that could occur at any time while driving. If the power steering assist is lost, a message is displayed on the Driver Information Center and a chime sounds to inform the driver. Steering control can be maintained, as the vehicle will revert to a manual steering mode, but would require greater driver effort at low vehicle speeds, which could result in an increased risk of a crash.

What will we do?

Depending on whether you already had some parts on your steering system replaced, your GM dealer will replace the torque sensor assembly or the power steering motor controller unit, or both. This service will be performed for you at **no charge**. Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the actual service correction time of approximately 40 minutes to 1 hour and 45 minutes, depending on the repair required.

What should you do?

You should contact your GM dealer to arrange a service appointment as soon as possible.

Did you already pay for this repair?

Even though you may have already had this condition corrected, you will still need to take your vehicle to your dealer for additional repairs. If you have paid for repairs for the recall condition, please complete the enclosed reimbursement form and present it to your dealer with all required documents. Working with your dealer will expedite your request, however, if this is not convenient, you may mail the completed reimbursement form and all required documents to Reimbursement Department, PO Box 33170, Detroit, MI 48232-5170. The completed form and required documents must be presented to your dealer or received by the Reimbursement Department by July 31, 2015, unless state law specifies a longer reimbursement period.

Do you have questions?

If you have questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.
