Dealer Bulletin: RCL 14-001

Dear Ducati Owner,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act & Canada Motor Vehicle Safety Act.

Ducati Motor Holding S.P.A. has decided that a defect which relates to motor vehicle safety exists in M.Y. 2012 and 2013 Panigale motorcycles. Our records indicate that you are the owner of a Ducati motorcycle affected by this safety recall campaign. Please take the time to read this letter and help us take the appropriate steps to ensure that your vehicle is operating properly.

What is wrong?

On-going quality testing on the motorcycles as manufactured, as well as analysis of field reports on the motorcycles, has identified some potential safety issues affecting all Model Year 2013 and some model year 2012 1199 Panigale motorcycles. Ducati has determined that your motorcycles dashboard may fail to supply power to the left handlebar switch. The possible consequence of this safety-related defect is potential damage to the motorcycle, increased risk of crash, and potential hazard to the rider in the event of a non-functional left handle bar switch effecting the functionality of the horn, right turn indicators, instrument panel display, and high beams.
