As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

Why is your vehicle being recalled?

The tie rod threaded attachment to the steering gear rack on your vehicle may not be tightened to specification. With this condition, the tie rod can separate from the steering rack and a crash could occur without prior warning.

What will we do?

Because of service scheduling requirements, it is likely that your dealer will need your vehicle longer than the service correction time of approximately one to two hours.

What should you do?

You should contact your GM dealer as soon as possible to arrange to have your vehicle towed to the dealership. A courtesy vehicle will be provided, if needed. **Do not drive your vehicle to the dealership.**

FOR YOUR SAFETY, DO NOT DRIVE YOUR VEHICLE UNTIL IT HAS BEEN INSPECTED OR REPAIRED.
