IMPORTANT SAFETY RECALL

This Notice Applies to Your Motorcycle VIN: JS1VP56A_XXXXXXXX

May 26, 2014

Dear Suzuki Owner:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act. Suzuki Motor Corporation has decided that a defect which relates to motor vehicle safety exists in 2014 DL650A V-Strom motorcycles.

What is the problem?

On some 2014 Suzuki DL650A V-Strom motorcycles, a link on the drive chain may not have been riveted properly. If a link becomes disconnected, the drive chain can come off the sprockets while the motorcycle is being operated and engine power will not be transmitted to the rear wheel. This can result in loss of control of the motorcycle, and can increase the risk of a crash.

For your safety and customer satisfaction, we are initiating a safety recall campaign to inspect the affected drive chain.

▲ WARNING

Operating your motorcycle without having the recall service performed may increase the risk of a crash.

To minimize the risk of a crash, do not ride or allow anyone else to ride your motorcycle until this recall service has been completed.

What is Suzuki doing to solve the problem?

Your dealer will inspect the drive chain on your 2014 Suzuki DL650A V-Strom motorcycle. If the drive chain has a link that is not riveted properly, your dealer will install a new chain, and front and rear sprockets on your motorcycle.

This procedure will take approximately two hours to complete.

Parts are available now, and there will be no charge to you for any recall service-related parts or labor.

What you should do:

Make sure you are prepared for the recall service by taking the following steps:

- **Before** taking your motorcycle to your dealer, contact them as soon as possible to set up an appointment for the recall service.
