

VEHICLE SAFETY RECALL – R3W012

14th January 2015

Dear Sir/Madam,

As a result of continuous product monitoring, Morgan Three Wheeler Ltd. has found that the brake failure warning lamp fitted to your vehicle does not comply with the requirements of FMVSS 122a. The warning lamp fitted to your Morgan 3 wheeler may not correctly indicate low brake fluid in the brake fluid reservoir, potentially leading to brake failure.

For safety reasons it is therefore necessary to have an additional 'BRAKE FAILURE' warning lamp installed.

Your vehicle is one of the vehicles affected.

Please contact an authorized Morgan Three Wheeler Dealer to arrange an appointment. Please bring this letter and your Service Booklet with you when you visit the dealer, so that we can make all necessary entries.

We will install the additional 'BRAKE FAILURE' warning lamp free of charge and estimate the repair will take approximately 1.5 hours.

Any Lessor that receives this notification must send a copy of this notice to the Lessee.

If you have any queries regarding this measure please contact:
