

IMPORTANT SAFETY RECALL

This notice applies to your vehicle, 4NUES [REDACTED]

NOVEMBER 2014

Dear Isuzu Customer:

This notice is sent to you in accordance with the requirement of the National Traffic and Motor Vehicle Safety Act.

Previously, you were notified that your 2006 model year Isuzu Ascender was involved in safety recall number 12V-406 or safety recall number 13V-248. This letter is to inform you that parts are now available to repair your vehicle.

The manufacturer of your vehicle, General Motors, has decided that a defect, which relates to motor vehicle safety, exists in certain 2006 model year Isuzu Ascender vehicles. As a result, Isuzu Motors America, LLC is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

WHAT IS THE CONDITION?

Previously, your vehicle was serviced under either safety recall 12V-406 or safety recall number 13V-248, which provided that if the driver's door module was functioning properly, a protective coating was to be applied. If the module was not working properly, it was to be replaced. Your vehicle was repaired by having a protective coating applied to the driver's door module and may continue to have a safety related defect.

If fluid, such as melted snow containing road salt, enters the driver's door module, it may cause corrosion that could result in a short in the circuit board. A short may cause the power door lock and power window switches to function intermittently or to stop working. A short may cause overheating which could melt components of the door module, producing odor, smoke, or a fire. Additionally, the windows may raise or lower themselves, without user input. These conditions may occur even with the vehicle parked and the key removed.

It is advised that you park your vehicle outdoors until it has been remedied.

WHAT WE WILL DO

Your Isuzu service facility will install a new driver door module. This service will be performed for you at no charge. Because of service scheduling requirements, it is likely that your service facility will need your vehicle longer than the actual service correction time of approximately 30 minutes.

WHAT YOU SHOULD DO

Visit our website at www.isuzu.com to identify the Isuzu service facility that is closest to you. Then, you should contact the service facility to arrange a service appointment as soon as possible. Please present this letter or refer to safety recall number 14V-404.

Continued on reverse.

IMPORTANT: If you have sold or traded your Isuzu vehicle, please enter the owner's name and address, if known, on the attached "Change of Information" postcard, tear off at both perforations, and drop it in the mail. Postage has already been paid. We will contact the new owner. Federal law requires that any vehicle lessor receiving this campaign notice must forward a copy of this notice to the lessee within ten days. Lessor means a person or entity that is the owner, as reflected on the vehicle title, of any five or more leased vehicles.
