

IMPORTANT SAFETY RECALL
This notice applies to your vehicles with the VINs
noted on the enclosed list.

SAFETY RECALL NOTICE

November 06, 2014

Subject: NHTSA Campaign # 14V-587

Dear NABI Customer:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. NABI Bus, LLC (NABI) has decided that a defect which relates to motor vehicle safety exists in certain 2012 31LFW model city transit buses, manufactured between April 28, 2012 and December 16, 2012 and in certain 2008-2013 416 model city transit buses, manufactured between October 30, 2008 and February 15, 2014.

Our records identify you as the owner of the vehicles shown on the attached list, affected by this recall.

REASON FOR THIS RECALL

Certain 416 and 31LFW model city transit buses, manufactured by NABI Bus, LLC, are not equipped a transmission interlock feature to prevent the wheelchair lift or ramp from being moved from the stowed position unless the transmission is in neutral, as required by Federal Motor Vehicle Safety Standard (FMVSS) 403.

The buses are equipped with a brake interlock that automatically applies the service brakes and are also equipped with a feature that does not allow the lift or ramp to be moved from the stowed position unless the parking brake has been applied. The service brakes remain automatically applied if the front door is open or if the lift is not in the stowed position. However, these buses do not comply with FMVSS 403, which requires that the lift should not be able to move from the stowed position unless the transmission is in neutral.

WHAT WE WILL DO

NABI will contact you to schedule the inspection and repair of your vehicles.

NABI will repair the vehicles free of charge.

NABI field service personnel will install a new electrical program on these buses that incorporates a feature that will not allow the lift or ramp to move from the stowed position unless the transmission is in neutral.

If NABI does not remedy this condition without charge on the mutually agreed upon service date or within 5 days of this agreed upon date, you can obtain assistance by calling NABI Customer Service at (256) 241-1298 or (256) 241-1312. If you believe that NABI has failed to remedy the vehicle without charge within a reasonable time, you may wish to inform the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Avenue, SE, Washington, D.C. 20590; or call the toll-free Auto Safety Hotline at 1-888-327-4236 (TTY: 1-800-424-9153); or contact NHTSA at <http://www.safercar.gov>.

Federal law requires that any vehicle lessor receiving this recall notice must forward a copy of this notice to the lessee within ten days.

We apologize for any inconvenience this matter may cause you.

NABI Bus, LLC
