

IMPORTANT SAFETY RECALL

P61 / NHTSA 14V-631

This notice applies to your vehicle (VIN: xxxxxxxxxxxxxxxxxxxx).

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Dear: (Name)

FCA has decided that a defect, which relates to motor vehicle safety, exists in certain **2011 through 2013 model year Jeep® Wrangler vehicles**.

The problem is... The power side view mirrors on your vehicle may experience a loss of right and/or left heated power mirror function. Water may travel along the heated power mirror wiring harness and into the heated power mirror electrical connector(s). This can cause corrosion inside the heated mirror connector(s) and the formation of a resistive bridge between the power and ground electrical terminals. A resistive bridge between the power and ground electrical terminals in the heated power mirror connector(s) could cause an electrical fire without warning.

What your dealer will do... FCA will repair your vehicle free of charge (parts and labor). To do this, your dealer will relocate the power feed electrical terminal for the heated power mirrors to a separate electrical connector and add a water shield. The work will take about 1½ hours to complete. However, additional time may be necessary depending on service schedules.

What you must do to ensure your safety... Simply contact your Chrysler, Jeep, Dodge or RAM dealer right away to schedule a service appointment. Ask the dealer to hold the parts for your vehicle or to order them before your appointment. **Please bring this letter with you to your dealer.**

If you need help... If you have questions or concerns which your dealer is unable to resolve, please contact the FCA Group Recall Assistance Center at either **recalls.mopar.com** or 1-800-853-1403.

Please help us update our records by filling out the attached prepaid postcard if any of the conditions listed on the card apply to you or your vehicle. If you have further questions go to **recalls.mopar.com**.
