

IMPORTANT SAFETY RECALL**P63 / NHTSA 14V-632**

This notice applies to your vehicle (VIN: xxxxxxxxxxxxxxxxxxxx).

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Dear: (Name)

Chrysler has decided that certain **2014 model year Chrysler Town & Country, Dodge Caravan and Jeep® Wrangler vehicles** fail to conform to Federal Motor Vehicle Safety Standard (FMVSS) No. 138 – Tire Pressure Monitoring Systems.

The problem is... **The Tire Pressure Monitor (TPM) control module on your vehicle was incorrectly set during the manufacturing process. This may result in a false illumination of the TPM warning lamp and/or a false “Low Tire Pressure” warning message to display on the Electronic Vehicle Information Center (EVIC) screen. The TPM system is not performing in the manner designed to meet Federal Motor Vehicle Safety Standard (FMVSS) 138 - Tire Pressure Monitoring System (TPMS). Incorrect tire pressure monitoring could cause the vehicle operator to drive the vehicle without knowing of a low tire pressure condition. Driving a vehicle with a low tire pressure condition could cause tire failure and/or a crash without warning.**

What your dealer will do... **Chrysler will repair your vehicle free of charge (parts and labor).** To do this, your dealer will reset the Tire Pressure Monitor (TPM) control module. The work will take about ½ hour to complete. However, additional time may be necessary depending on service schedules.

What you must do to ensure your safety... **Simply contact your Chrysler, Jeep, Dodge or RAM dealer right away to schedule a service appointment. Please bring this letter with you to your dealer.**

If you need help... **If you have questions or concerns which your dealer is unable to resolve, please contact the Chrysler Group Recall Assistance Center at 1-800-853-1403.**
