IMPORTANT: SAFETY RECALL REMINDER

IMPORTANT: SAFETY RECALL REMINDER

In March 2014, we notified you of a Safety Recall involving the rocker arm shaft retention bolts on your 2013 Honda CBR500R/CB500F/CB500X motorcycle. At the time, we advised owner's of the following:

There is a possibility that one of the bolts used in the assembly of the engine may not have received the proper anti-corrosion treatment, which could allow the bolts to loosen during operation. A bolt that loosens or falls out during operation can cause an oil leak, a reduction in engine power or an engine stall, increasing the risk of a crash.

According to our records, you have not yet had your affected CBR500R/CB500F/CB500X repaired. Please call your authorized Honda motorcycle dealer to schedule an appointment as soon as possible. This recall repair will be performed free of charge.

If you have already had your CBR500R/CB500F/CB500X repaired, or if you no longer own this motorcycle, please let us know by filling out the included, postage paid, *Information Change Card*. We will update our records and stop sending you reminder notices.

If you have any questions about this recall, your authorized Honda motorcycle dealer will be happy to assist you.

Sincerely,

**American Honda Motor Co., Inc.
Motorcycle Division**
