

SECOND FINAL NOTICE

DATE: SEPTEMBER 22, 2015
TO: BLUE BIRD OWNERS
SUBJECT: RECALL R14XJ
ROUSH PROPANE SYSTEM FUEL LINE CRACKS

According to our records, we have not received confirmation that the above referenced recall dated September 29, 2014 has been completed. A copy of Recall R14XJ is attached.

Your buses affected by Recall R14XJ are identified by Blue Bird body number and VIN under Section 2 on the enclosed cover sheet.

If this is the first time you received notification of Recall R14XJ, please read the enclosed notification carefully. Recall R14XJ must be completed, as soon as possible.

Roush CleanTech, LLC personnel are handling the arrangements for this campaign. **You should contact Roush Service at 1-800-597-6874 and select Prompt 2 for CleanTech in order to arrange to have the recall remedy performed.**

If you no longer own the subject bus(es), please complete the appropriate section of the yellow cover sheet and return to Blue Bird in the enclosed pink postage prepaid reply envelope.

Questions regarding this recall campaign should be directed to me at (478) 822-2242 or lisa.hancock@blue-bird.com.

Thank you for your prompt attention to this matter.

Sincerely,

Lisa Hancock
Corporate Recall Administrator
Blue Bird Body Company

IMPORTANT SAFETY RECALL NOTICE

**NHTSA NO. 14V-443 SCHOOL BUSES
NHTSA NO. 14V-444 NON-SCHOOL BUSES**

September 29, 2014

Dear Blue Bird Owner:

This important safety recall notice applies to your buses identified by both Blue Bird body number and Vehicle Identification Number (VIN) on the enclosed yellow cover sheet.

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Bird Body Company has decided that a defect which relates to motor vehicle safety exists in certain 2013 through 2015 model year Blue Bird "Vision" model school buses and non-school buses manufactured from December 05, 2011 through July 02, 2014 and equipped with propane autogas fuel systems.

Blue Bird has determined that the propane autogas fuel system fuel return line can fatigue which could lead to a crack in the fuel line near the support bracket. This failure may result in possible leakage of propane autogas, which could potentially lead to fire. To remedy this condition the existing propane fuel return line will be replaced and a new fuel return line with support clamps installed.

The existing fuel return line will be replaced and new support brackets will be installed. Estimated labor time to remove and replace the fuel return line is 0.75 hours (45 minutes) per bus. Recall R14XJ will be performed at no cost to the owner.

Roush CleanTech, LLC personnel will be performing this recall on all affected buses with their trained personnel. You will be contacted shortly by a Roush Field Service Representative to arrange a time to have the recall remedy performed.

If you no longer own the subject bus(es), please complete the appropriate section of the yellow cover sheet and return to Blue Bird in the enclosed pink postage prepaid reply envelope.

If the modifications directed by this notification were performed on your bus prior to the receipt of this recall notification, complete and sign the pink recall reply sheet and attach a copy of the work order/invoice. Mail the documents in the pink self-addressed postage prepaid reply envelope included with the recall notification to Blue Bird for warranty consideration. Reimbursements will be made in accordance with the requirements of the National Highway Transportation Safety Act, Title 49 Code of Federal Regulations, Parts 573 and 577.

BLUE BIRD BODY COMPANY

P.O. Box 937 – 402 Blue Bird Blvd – Fort Valley, Georgia – (478) 825-2021
