IMPORTANT SAFETY RECALL REMINDER

THIRD REMINDER – ACTION REQUIRED

IMPORTANT SAFETY RECALL REMINDER

Dear Suzuki Customer,

Suzuki Motor Corporation has decided that a defect which relates to motor vehicle safety exists in certain model year 2011-2014 GSX-R750 and 2009-2014 GSX-R1000 Suzuki motorcycles. Our records indicate that you are a current registered owner and that your motorcycle has not yet been repaired.

WARNING: Operating your vehicle without completing this repair exposes you, your passenger, and others to unnecessary risk of personal injury and/or property damage!

What is the problem?

If the rider tries to recover from a missed shift by upshifting without disengaging the clutch, a very large torque is applied to the drive sprocket. This can result in the left-side of the rear axle shaft moving forward and damaging the left-side drive chain adjuster, which may result in the chain derailing from the sprocket. This may result in loss of control of the motorcycle, and can increase the risk of a crash.

What is Suzuki doing to solve the problem?

This recall was originally announced in 2014 and we continue to reach out to all customers who own affected motorcycles. Parts are in stock and our dealer network is ready to make the necessary repairs.

What you should do:

Please contact any authorized Suzuki Dealer to schedule an appointment to have these components replaced. Please call as soon as you receive this important Safety Recall Notification and mention the Campaign ID on the outside of this card. The QR codes and websites on the back of this card will help you find a dealer near you.

Your motorcycle may be affected by more than one recall or service campaign.

There are two ways to find out:

- Visit the National Highway Traffic Safety Administration's website at www.safercar.gov and enter your VIN.
- Ask your dealer when you call to schedule an appointment for repairs. Just provide them with the VIN from the front of this card.

If you no longer own the vehicle in question, or if you have questions or concerns, please contact our Customer Relations Department at 714-572-1490.

Thank you for your commitment to safety, and for your support of the Suzuki brand.
