Recall Number 14S22 - Fuel Tank Corrosion Inspection and Repair
and Description:

What is the Issue? If your vehicle is operated in high corrosion areas for an extended period (where salt is used on the roadways during winter months), it is possible that salt and moisture may become trapped under the fuel tank mounting reinforcement brackets. Over time, corrosion under these reinforcement brackets can spread to the fuel tank that can result in a fuel leak. If a leak occurs, you may experience symptoms of a fuel odor, fuel on the ground, or illumination of the "Service Engine Soon" warning indicator. Fuel leakage in the presence of an ignition source may result in a fire.

What Are We Asking You To Do? Please contact your dealer to schedule an appointment to have this important service procedure completed. If you do not already have a servicing dealer, you can access www.Fordowner.com for dealer addresses, maps and driving instructions.

The vehicle owner is responsible for having this service action performed. Ford Motor Company reserves the right to deny coverage for any vehicle damage that may result from failure to have this recall performed on a timely basis. Therefore, please have this recall performed as soon as possible.

Service Assistance: If you have additional questions, please contact the Ford Motor Company Customer Relationship Center at 1-866-436-7332 and one of our representatives will be happy to assist you.
