IMPORTANT SAFETY RECALL

October 2014

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2013 model year Buick Encore and Cadillac ATS 4 door vehicles. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- This notice applies to your vehicle, **VIN:** _____.
- Your vehicle is involved in GM recall 14171.

Why is your vehicle being recalled?

Your vehicle may have a condition in which the front outboard lap belt pretensioner cables will retract upon deployment to pull in seat belt webbing, as intended, but may not lock in that position, allowing the cable and the retracted webbing to return to their original positions under occupant loading. If this occurs, there may be an increased risk of occupant excursion in frontal and rollover impacts, which increases the risk of injury to an occupant.

What will we do?

PARTS ARE NOT CURRENTLY AVAILABLE. When parts are available, your GM dealer will replace both front outboard lap belt pretensioners. This service will be performed for you at **no charge**.

We are working as quickly as possible to correct this condition. When parts are available, we will send you another letter asking you to take your vehicle to your GM dealer to have your vehicle serviced.

Do you have questions?

If you have questions or concerns that your dealer is unable to resolve, please contact the appropriate Customer Assistance Center at the number listed below.
