IMPORTANT SAFETY RECALL

December 2014

Dear General Motors Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

General Motors has decided that a defect which relates to motor vehicle safety exists in 2011-2013 model year (MY) Chevrolet Caprice and 2008-2009 MY Pontiac G8 vehicles. As a result, GM is conducting a safety recall. We apologize for this inconvenience. However, we are concerned about your safety and continued satisfaction with our products.

IMPORTANT

- This notice applies to your 2011-2013 MY Chevrolet Caprice or 2008-2009 MY Pontiac G8 vehicle, **VIN:** _____.
- Your vehicle is involved in GM recall 14445.

Why is your vehicle being recalled?

There is a risk, under certain conditions, that a driver may bump the ignition key with their knee and unintentionally move the key away from the “run” position. If this occurs, engine power, and power braking will be affected and power steering may be affected, increasing the risk of a crash. The timing of the key movement out of the “run” position, relative to the activation of the sensing algorithm of the crash event, may result in the airbags not deploying, increasing the potential for occupant injury in certain kinds of crashes.

What will we do?

PARTS ARE NOT CURRENTLY AVAILABLE, but when parts are available, your GM dealer will perform repairs to correct this condition. This service will be performed for you at **no charge**.

We are working as quickly as possible to determine a remedy to correct this condition. When the remedy is determined and parts are available, we will send you another letter asking you to take your vehicle to your GM dealer to have your vehicle serviced. You can also check the status of this recall at www.recalls.gm.com.
