Submit to NHTSA – December 18, 2015

On December 18, 2015, Honda filed an amended Defect Information Report (15V-370) to recall model years 2003-2004 Honda CR-V vehicles wherever located in the United States and its territories, to replace the PSPI passenger frontal airbag inflators contained in those vehicles. Some of these vehicles were previously affected by 14V-353 and 14V-700. The revised population for 14V-353 and 14V-700 is provided below.

The "previous population" numbers below represent the approximate populations reported to NHTSA at time of defect notification.

573.6(c)(3)

Total number of potentially affected vehicles: see below for population updates.

<u>NHTSA ID</u>	<u>Previous Population</u>	<u>New/Current Population</u>
14V-353	162,956	133,207
14V-700	272,142	223,602
