Subject: Opening Slide Floor May Expose Owners to Fumes

Dear Ms. Baker:

This letter serves to acknowledge Cruiser RV's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

CRUISER RV/STRYKER TOY/2016

Mfr's Report Date: February 18, 2015

NHTSA Campaign Number: 15V-103

Components:

EQUIPMENT:RECREATIONAL VEHICLE

Potential Number of Units Affected: 51

Problem Description:

Cruiser RV (Cruiser) is recalling certain model year 2016 Stryker Toy and Stryker Toy Hauler trailers manufactured July 21, 2014, to January 9, 2015, and equipped with an optional slide floor. In the affected trailers, the slide floor can be flipped up to access the storage space underneath. If the floor is flipped up while the trailer is stationary, the trailer occupants may be exposed to exhaust fumes from the generator or fumes from the exterior fueling station.

Consequence:

If the optional slide floor is opened and the occupants are exposed to fumes, there is an increased risk of injury.

Remedy:

Cruiser will notify owners, and dealers will secure the slide floor so that it cannot be opened, completely sealing it from the occupant space, free of charge. The recall is expected to begin March 16, 2015. Owners may contact Cruiser customer service at 1-866-277-5630.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received Cruiser's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Michelle Rice who may be reached by phone at 202-366-1060, or by email at michelle.rice@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

Jennifer Timian
