Problem Description:

Chrysler (FCA US LLC) is recalling certain model year 2015 Dodge Challenger SRT and Dodge Charger SRT vehicles manufactured September 18, 2014, to February 5, 2015, and equipped with a 6.2L supercharged engine. O-ring seal and fuel rail crossover hose damage may result in the fuel rail hose connection leaking fuel.

This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.
