Subject: Stabilizing Outriggers may Drift

Dear Ms. Torres-Herrera:

This letter serves to acknowledge Genie Industries, Inc.'s notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

GENIE/TZ-34/20/2015

Mfr's Report Date: May 19, 2015

NHTSA Campaign Number: 15V-326

Components:

EQUIPMENT

Potential Number of Units Affected: 26

Problem Description:

Genie Industries, Inc. (Genie) is recalling certain model year 2015 TZ-34/20 trailers manufactured January 26, 2015, to February 24, 2015. Due to out of specification cylinders, the stabilizing outriggers may drift while the boom lift is being used.

Consequence:

If the outriggers drift while the boom lift is in use, the lift may tip-over, increasing the risk of injury to the user or those nearby.

Remedy:

Terex will notify owners on behalf of Genie, and dealers will replace the cylinder in the affected outrigger assemblies, free of charge. The recall is expected to begin July 14, 2015. Owners may contact Genie customer service at 1-800-536-1800. Genie's number for this recall is 150004.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

We have received Genie's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.

Your contact for this recall will be Kelly Schuler who may be reached by phone at (202) 366-5227, or by email at kelly.schuler@dot.gov or through the office email at rmd.odi@dot.gov. We look forward to working with you.

Sincerely,

Jennifer Timian
