Problem Description:

Chrysler (FCA US LLC) is recalling certain model year 2015 Ram 4500, and 5500 pickup trucks manufactured January 30, 2015, to February 6, 2015. The affected vehicles may have inadequate penetration of the front upper control arm loop to spacer weld, reducing the front suspension stability.

Consequence:

A reduction of suspension stability control could affect control of the vehicle, increasing the risk of a crash.

Remedy:

Chrysler will notify owners, and dealers will inspect and replace any upper control arms, free of charge. The recall is expected to begin September 19, 2015. Owners may contact Chrysler customer service at 1-800-853-1403. Chrysler's number for this recall is R34.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
