**Mfr's Report Date:** December 23, 2015

**NHTSA Campaign Number:** 15V-876

**Components:**  
SEAT BELTS:FRONT:ANCHORAGE

**Potential Number of Units Affected:** 15

**Problem Description:**

General Motors LLC (GM) is recalling certain model year 2015 Chevrolet Cruze vehicles manufactured September 24, 2014, to May 29, 2015. In the affected vehicles, one of the driver-side seat belt assembly bolts may not be properly tightened.

**Consequence:**

An insufficiently torqued bolt may prevent the seat belt from holding the required load in a crash, increasing the risk of injury.

**Remedy:**

GM will notify owners, and dealers will inspect and tighten the bolts, free of charge. The manufacturer has not yet provided a notification schedule. Owners may contact Chevrolet customer service at 1-800-222-1020. GM's number for this recall is 15777.

**Notes:**

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to [www.safercar.gov](http://www.safercar.gov).

NHTSA has received GM's proposed owner notification letter and approved it for distribution.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Please be reminded that under 49 U.S.C. § 30112(a)(3), it is illegal for a manufacturer, to sell, offer for sale, import, or introduce or deliver into interstate commerce, a motor vehicle or item of motor vehicle equipment that contains a safety defect once the manufacturer has notified NHTSA about that safety defect. This prohibition does not apply once the motor vehicle or motor vehicle equipment has been remedied according to the manufacturer's instructions.

As stated in Part 573.7, submission of the first of six consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter.
