 Not sequential VINs**Description of Defect :**

Description of the Defect : The front loading ramps weight rating labels states a maximum load of 700 lbs. when the actual maximum load should be 500 lbs.

Description of the Safety Risk : If overloaded, the front loading ramps can fail resulting in personal or property damage.

Description of the Cause : The ramp supplier mislabeled the ramps they supplied to Crossroads.

Identification of Any Warning that can Occur : None.

Supplier Identification :**Component Manufacturer**

Name : L & W Engineering

Address : 107 Industrial Parkway

Middlebury INDIANA 46540

Country : United States

Chronology :

On January 16, 2015, Crossroads was notified by L & W Engineering that the label on the ramp doors was incorrect.

Description of Remedy :

Description of Remedy Program : The remedy will be to notify the vehicle owners by mail and supply them with correct labels to place over the existing labels.

How Remedy Component Differs from Recalled Component : The label states the correct maximum load value of 500 lbs.

Identify How/When Recall Condition was Corrected in Production : On 1/16/15 all inventory in house was inspected to insure the correct labels were in place and all production inventory was remedied with new labels if required.
