Description of the Defect : The OCCC label does not state a value for the weight of the water the motor home is capable of carrying. The value is indicated as 0 lbs. on the incorrect label.

Description of the Safety Risk : The owner could overload their vehicle if they do not reduce the cargo carrying capacity by the correct weight amount of the water they have the ability to carry. This could result in a loss of vehicle control resulting in a crash.

Description of the Cause : The information was not correctly entered into the database that generates the labels in production.

Chronology :

4/8/15 - The non-compliance was found during a routine engineering audit of the vehicle labeling.

Description of Remedy :

Description of Remedy Program : The Recall campaign to be implemented by TMC to remedy the non-compliance will be to provide the owners or dealers of the vehicles a corrected OCCC label. The incorrect label can either be removed or the new label can be placed directly over the old label. As will be set forth in the owner notification letter, this defect will be corrected by TMC at no expense to the owner.

How Remedy Component Differs from Recalled Component : The remedied label contains a weight value for the weight of the water other than zero.

Identify How/When Recall Condition was Corrected in Production : The issue was corrected in production on 4/9/15. All units in production and on premise were remedied.

Recall Schedule :

Description of Recall Schedule : TMC will notify owners of the vehicles within two weeks of NHTSA approval of the supplied owner letter.

Planned Dealer Notification Date : APR 27, 2015 - APR 27, 2015
