

Part 573 Safety Recall Report**15V-680**

Manufacturer Name : Starcraft RV
Submission Date : OCT 14,2015
NHTSA Recall No. : 15V-680
Manufacturer Recall No. : 9902060

**Manufacturer Information :**

Manufacturer Name : Starcraft RV
 Address : 903 South Main Street
 P.O. Box 460 Middlebury IN 46540
 Company phone : 800-945-4787

Population :

Number of potentially involved : 0
 Estimated percentage with defect : 0

Vehicle Information :

Vehicle : 2016-2016 Travel Trailers Launch
 Vehicle Type : TRAILERS
 Body Style :
 Power Train : NR
 Descriptive Information : Full scope is still being created.
 Production Dates : JUL 09, 2015 - OCT 02, 2015

VIN (Vehicle Identification Number) Range

Begin : NR

End : NR

 Not sequential VINs**Description of Defect :**

Description of the Defect : Breaker box - breakers mislabeled or missing labels 10-14-15 adding 12V fuse panel also has incrt information on label.. states all are 15 amp fuses, when there is one 20 amp fuse

Description of the Safety Risk : possibility of electrical shock if breaker is closed for wrong area when working on coach.

Description of the Cause : Human error on production line - correct diagram showing placement was not followed

Identification of Any Warning that can Occur : NR

Supplier Identification :**Component Manufacturer**

Name : NR

Address : NR

NR

Country : NR

Chronology :

10-2-15 - during inspection on production line, was discovered that the breakers in a breaker box were mislabeled or they didn't have a label at all. Investigation/ inspection of all products on all lines started immediately. Discovered that line workers were not following print showing correct labeling.. we are still trying to determine the starting point of the affected units 10-7-15 production discovered that the 12V fuse panel on these units is labeled that all fuse are 15 amp but one is a 20amp. will include both issues on one recall instructions.

Description of Remedy :

Description of Remedy Program : Starcraft dealers will receive labels for all breakers and instructions showing correct location - Starcraft has labels and is correct all product on site prior to shipping. 10-14-15 Adding new label will be provided for the 12V fuse panel

How Remedy Component Differs from Recalled Component : correct location of labels

Identify How/When Recall Condition was Corrected in Production : 10-2-15 all production lines were checked to make sure line workers were following print and placing labels correctly in breaker box.

Recall Schedule :

Description of Recall Schedule : NR

Planned Dealer Notification Date : NR - NR

Planned Owner Notification Date : NR - NR
