Chronology :

On October 2, 2014, Strick Trailers determined that the design of a rear impact guard using gussets 46829 and 46830 may not have been verified using prescribed test procedures.

Between October 2, 2014 and approximately October 6, 2015, Strick reviewed the designs containing gussets 46829 and 46830 and determined they did not qualify as "wheels back" and thus required a rear impact guard pursuant to FMVSS 224 and FMVSS 223.

Between October 6, 2015, and November 9, 2015, Strick Trailers prepared bills of materials, fabricated and assembled parts for the test specimen.

On November 10, 2015, Strick Trailers tested a rear impact guard assembly containing gussets 46829 and 46830. The test was conducted in accordance with the procedures set forth in FMVSS 223. Analysis of the test results indicated that the assembly did not meet the requirements of FMVSS 223.

Description of Remedy :

Description of Remedy Program : Strick Trailers intends to supply and pay for the installation of reinforcements to the rear impact guard. The remedy plan will be set forth in greater detail in the proposed customer notification letter to be provided to NHTSA within 45 days from the date hereof. Strick Trailers will notify all affected customers within 5 days of NHTSA's approval of the proposed customer notification letter.
