

# NISSAN **BULLETIN**

2013-14 Nissan Pathfinder /2014 Pathfinder Hybrid Secondary Hood Latch Cable Voluntary Safety Recall Campaign

> Reference: PC343 Date: January 26, 2015

#### \*\*\*\*\* Dealer Announcement \*\*\*\*\*

# **A STOP SALE CONDITION IS IN EFFECT.**

Nissan is conducting a voluntary safety recall campaign on certain specific MY2013-14 Nissan Pathfinder and 2014 Pathfinder Hybrid vehicles manufactured in Smyrna, TN between 6/20/2012 - 11/18/2013 to adjust the secondary hood latch stop tab.

On some of the affected vehicles, if the primary hood latch is not engaged, the secondary hood latch may not hold the hood closed as designed while the vehicle is in motion. Adjusting the secondary hood latch stop tab will release possible tension from the secondary latch cable and help proper secondary latch engagement and operation.

IMPORTANT: It is a violation of Federal law for retailers to sell or deliver vehicles in their inventory covered by this notification until the campaign action is performed.

#### \*\*\*\*\* What Dealers Should Do \*\*\*\*\*

- 1. Verify if vehicles currently in dealer inventory are affected by this recall campaign using Service Comm I.D. **PC343**
- 2. Use the attached bulletin, **NTB15-005**, to repair any customer vehicles or vehicles in dealer inventory affected by this campaign.
- 3. Submit the warranty claim and release the vehicle.

#### \*\*\*\*\* Parts Information\*\*\*\*

No parts are required for this repair.

# \*\*\*\*\* Repair Instructions \*\*\*\*\*

Nissan has developed bulletin **NTB15-005** containing instructions to perform this safety recall campaign, part information, and claims information. These instructions are available on ASIST and on NNAnet.com under My Documents in the Sales/Campaign, Parts/Campaign and Service/Campaign categories.

# \*\*\*\*\*Vehicle Identification\*\*\*\*

There are approximately **113,373** Nissan Pathfinder vehicles affected by this voluntary safety recall. Approximately **384** vehicles are currently in dealer inventory. Vehicles subject to this action can be identified through:

- **SERVICE COMM** Beginning January 27<sup>th</sup>, 2015 service departments can complete an inquiry in SERVICE COMM **I.D. PC343** to determine if a vehicle is subject to this voluntary safety recall.
- **VIN List** As a courtesy, included with this announcement is a list of affected vehicles sorted by region, district, and dealer.

### \*\*\*\*\* Body Damage Claims Information \*\*\*\*\*

If the vehicle has incurred damage due to the hood opening while in motion, **preapproval is required** before initiating body repairs.

• Contact the Warranty claims call center 1-800-258-7008 Option 7

Additionally, please send an email with the following information to: <a href="mailto:paint.inspections@nissan-usa.com">paint.inspections@nissan-usa.com</a>. Please include PC343, your dealer code, and VIN in the subject line of the email.

- Photos of the VIN plate and odometer reading
- Photos of the damage (include all parts requiring repair)
- Estimate to repair the vehicle (including rental while body repairs are being performed)

# \*\*\*\*\* Dealer Responsibility \*\*\*\*\*

It is the dealer's responsibility to check Service Comm using the appropriate Campaign I.D. for the campaign status on each vehicle falling within the range of this voluntary safety recall campaign which for any reason enters the service department. This includes vehicles purchased from private parties or presented by transient (tourist) owners and vehicles in dealer inventory. If a VIN subject to this recall campaign was part of a dealer trade, the letter associated with that VIN should be forwarded to the appropriate dealer for service completion.

# \*\*\*\*\* Dealer Communication \*\*\*\*\*

The information will be available on NNAnet.com and Dealer360 (recalls & campaigns community forum) on January 26<sup>th</sup>, 2015.

- NNAnet.com under My Documents in the following categories:
  - o Parts>Campaigns>
  - o Sales>Campaigns
  - Service>Campaigns>
  - o Hint search on keywords:
    - PC343

#### \*\*\*\*\* Owner Notification \*\*\*\*\*

Nissan plans to begin notifying owners of potentially affected Pathfinder and Pathfinder Hybrid vehicles in February, 2015 via U.S. Mail.

Aftersales DIVISION

# **FAQ:**

# Q. Is there a stop sale in effect?

A. Yes.

# Q. What is the reason for this voluntary safety recall?

A. On some of the affected vehicles, if the primary hood latch is not engaged, the secondary hood latch may not hold the hood closed as designed while the vehicle is in motion. If this occurs, the hood may open while driving and obscure the driver's vision, increasing the risk of a crash.

# Q. What will be the service department action?

A. The secondary hood latch stop tab will be adjusted to release possible tension from the secondary latch cable. This will help ensure proper secondary latch engagement and operation.

# Q. When will vehicle owners be notified?

A. Nissan will begin notifying customers with vehicles affected by this recall campaign in February 2015, by U.S. Mail.

# Q. What model year vehicles are involved?

A. Approximately 113,373 certain specific Model Year 2013-14 Nissan Pathfinder (R52) and Model Year 2014 Pathfinder Hybrid (R52h) U.S vehicles are included in this voluntary safety recall campaign.

#### Q. Are you experiencing this condition on any other Nissan (or Infiniti) models?

A. Yes. Certain specific Model Year 2013-14 Infiniti JX35/QX60 (L50) and JX35/QX60 Hybrid (L50h) vehicles produced between 11/29/2011 and 11/18/2013 may also be affected.

#### Q. Is there anything owners can do to lessen the condition?

A. Yes. We recommend owners check to ensure the hood is fully closed and latched. Owners should make an appointment with their Nissan dealer at their earliest convenience to have their vehicle remedied at no cost for parts and/or labor.

# Q. Can the hood open while driving if the primary hood latch is engaged?

A. No. The primary hood latch works properly as designed. This condition can only occur if the primary hood latch is not engaged for some reason (for example, if the hood release lever was pulled inadvertently). In this condition, the secondary hood latch may not be engaged which could cause the hood to open while driving.

# Q. Can I use my vehicle until the hood latch has been inspected?

- A. Yes, but you should contact your Nissan dealer as soon as possible to have your vehicle inspected if you receive an owner notification letter indicating your vehicle is potentially affected. **Nissan recommends that you that you check to ensure the hood is fully closed and latched.**
- Q. Have there been any injuries or fatalities related to this problem?
- A. No.
- Q. I have lost confidence in the vehicle. Will Nissan replace or repurchase the vehicle?
- A. The repair will fully correct this condition. As the condition will be corrected, there is no basis for repurchasing or replacing your vehicle.
- Q. How long will the corrective action take?
- A. This service, free for parts and labor, should take about 1 hour to complete. However, your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.
- Q. Will a rental vehicle be provided while the dealer is servicing the vehicle?
- A. No, please check with your dealership for alternate transportation availability.
- Q. Will I have to take my vehicle back to the selling dealer to have the service performed?
- A. No, any authorized Nissan dealer is able to perform the recall campaign.
  For CA: Please inform us of the dealer where you would like to have the corrective action completed.
- Q. Can I get expenses reimbursed for previous repairs or damage caused from the hood opening while the vehicle is in motion?
- A. Please direct the customer to contact Nissan Consumer Affairs about reimbursement of expenses. The toll free number is 1-800-NISSAN1 (1-800-647-7261). Customers may also submit inquiries and/or supporting documentation to National Consumer Affairs Department, Nissan North America, Inc. P.O. Box 685003, Franklin, TN 37068-5003.
