Attention: All Dealer Principals

Kia Motors America, Inc. will be conducting a Voluntary Safety Recall Campaign to replace the accelerator pedal assembly in some 2016 MY Kia Sorento vehicles produced from October 27, 2014 through January 29, 2015. Under certain circumstances, the engine may go into Forced Idle Mode, thus permitting only minimal vehicle acceleration. An inability to accelerate the vehicle beyond idle speed may increase the risk of another vehicle colliding with the Sorento.

The Technical Service Bulletin that provides vehicle repair procedures, affected VIN production range, and warranty claim information will be posted on the Kia Global Information System (KGIS) at www.kiatechinfo.com on February 11, 2015.

Your Service Manager was sent a copy of the owner notification letter and a Q&A guide for campaign questions both of which describe the issue and provide information on how to access the list of retail 2016 MY Kia Sorento vehicles.

NHTSA ADVISORY: It is a violation of Federal law for a dealer to deliver a new motor vehicle covered by this notification under a sale or lease until the defect is remedied.
