

# Important Recall Campaign Information

**Date:** March 6, 2015

**Attn:** Dealer Principal/General Manager/Service Manager/Parts Manager

**Subject:** Recall Campaign 127: 2008-2010 Elantra / 2009-2010 Elantra Touring Electronic Power Steering

## **What You Need to KNOW**

Hyundai has recently announced, but not yet launched, a safety recall involving 2008-2010 Elantra sedan vehicles produced beginning on June 1, 2008 through April 30, 2010, and 2009-2010 Elantra Touring vehicles produced beginning on November 1, 2008 through April 30, 2010.

If electronic power steering (EPS) electronic control unit (ECU) senses a discrepancy in the torque sensing circuitry, the EPS indicator lamp is illuminated in the instrument cluster, a diagnostic code is stored, and steering assist is no longer provided. If the ignition key is cycled off and back on, steering assist is typically restored.

Hyundai Motor America will notify all owners of the vehicles described above to return their vehicles to their Hyundai dealers for repair. **The final remedy has not been developed at this time.** Customer Notification letters of the campaign are scheduled to be mailed in the second quarter of 2015.

We are currently making preparations to implement the Safety Recall remedy. A Technical Service Bulletin will be provided when the remedy is available. In the interim, please call the Hyundai Techline for the latest instructions if a customer comes to you and is concerned about driving their car.

## **What You Need to DO**

- Inform your Dealership Campaign Recall Team of the upcoming campaign.
- Conduct a Resource Assessment to support the campaign; people, time and facility, and adjust accordingly. Remember that you still need to accommodate your normal customers as well as customers from other recent campaigns.
- For any customers that are currently experiencing a concern related to this campaign, please call the Hyundai Techline for the latest instructions. Please make sure the customer understands that any interim repairs performed will NOT be considered a campaign completion. Once the campaign remedy is announced, the customer will have to return for final repair.

Thank you for your prompt attention to this important safety matter and continued commitment to taking care of Hyundai customers.
