

# Federal Recall Information

---

215-C

## Supplier

Peterbilt

---

## Description

Loose Tie Rod End Clamps

---

## Release Date

3/13/2015

---

## Introduction

**THIS NOTIFICATION IS BEING SENT TO DEALERS PURSUANT TO NHTSA REGULATIONS.**

**WHEN PARTS BECOME AVAILABLE THE BULLETIN WILL BE UPDATED AND CUSTOMER LETTERS WILL BE SENT.**

Peterbilt has determined that certain vehicles built between July 21, 2008 and February 26, 2014 were manufactured with D2000F 5 inch drop axle configurations, may contain a defect. The tie rod end clamp may not have been tightened properly during vehicle assembly. Loss of tie rod end clamp bolt connection could result in sudden vehicle instability and increase the risk of a crash causing injury and/or damage to property.

---

## Resolution

On any vehicle that shows to be open in SIR with recall number 215-C, replace the tie rod end assembly and align the axle.

---

**It is a violation of Federal law for a dealer to sell or lease new vehicles covered by this recall until the defect or noncompliance has been corrected.**

---

## Warranty

The SIR system will indicate chassis involved in this field repair with the designator for "**215-C**". If the vehicle is affected and is shown to have an open campaign, please complete the work and file a quick claim "**215-C**".
