NISSAN BULLETIN

2014 Rogue (T32) Fuel Pump Voluntary Safety Recall Campaign Update 6: Automatic Parts Shipment

Reference: PC368, PC369, PC370

Date: July 30, 2015

***** Dealer Announcement *****

On June 18th, Nissan sent out a parts status update to dealers to make them aware that backorder wait times were expected to be reduced to 1 week by the end of June.

This purpose of this announcement is to inform dealers that invitation to repair notifications are being sent to all owners affected by **PC368** on August 3, 2015. Nissan is also working to pull ahead repair notification mailings for owners affected by PC369 & PC370. An automatic shipment of fuel pumps is being sent to dealers to prepare for the increased repair demand generated by these owner notifications.

***** Parts Information/Availability*****

To ensure adequate parts availability, Nissan has developed an automatic parts shipment plan which will provide an ample supply of parts to all dealers. Parts should begin to arrive at dealerships by Saturday, August 1st. Please refer to the attached parts distribution file for details.

The parts related to this campaign are still on sales restriction. However, dealers will be able to continue to order additional parts as needed using the existing parts order form.
