

Mitsubishi Motors North America, Inc. PARTS BULLETIN

SUBJECT:

ETACS ECU - SAFETY RECALL CAMPAIGN

No: 54-XX-01-15

Date: JUNE 2015

Model:

LANCER; LANCER RALLIART;
LANCER SPORTBACK; LANCER
SPORTBACK RALLIART;
LANCER EVOLUTION; OUTLANDER

PURPOSE:

Due to a manufacturer error, the ETACS ECU on affected vehicles may contain components with a high electrical resistance. This condition can result in voltage instability, and in the worst case, the vehicle could lose headlights, taillights, and/or windshield wiper functionality.

Please reference SAFETY RECALL BULLETIN SR-15-002 for the procedures on how to inspect and replace affected vehicles built within a certain production period.

AFFECTED VEHICLES:

- Certain 2009 - 2010 Lancer vehicles built January 12, 2009 to July 6, 2010
- Certain 2009 – 2010 Lancer Ralliart vehicles built January 13, 2009 to June 30, 2010
- Certain 2010 Lancer Sportback vehicles built June 17, 2009 to June 8, 2010
- Certain 2010 Lancer Sportback Ralliart vehicles built June 17, 2009 to May 13, 2010
- Certain 2010 Lancer Evolution vehicles built July 14, 2009 to August 4, 2010
- Certain 2009 - 2010 Outlander vehicles built January 12, 2009 to August 27, 2010

IMPORTANT

Affected new or used inventory vehicles must be repaired before the vehicle is delivered. Dealers must check their inventory vehicles' VINs on the Warranty Super Screen to verify whether the vehicle is involved in this recall campaign. It is a violation of Federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by the notification under a sale or lease until the defect or non-compliance is remedied.
