May 15, 2015

Dear Dealer:

Subject: Safety Recall Notice
NHTSA Recall No. 15V260

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Reason for This Recall

EIDorado National California, Inc. ("EIDorado") decided that a defect which relates to motor vehicle safety exists in certain Passport model buses manufactured between January 1, 2011 and September 3, 2014.

Other bus models manufactured by EIDorado are not included in this recall.

Vehicles subject to this recall campaign were manufactured with an alternator cable routed in an area, which over time, could rub through the cable insulation potentially causing an electrical short and possibly cause a fire. Eldorado has determined that this cable needs to be inspected and secured so it can not rub any sharp areas that might cut through the insulation of the cable and cause a short or the risk of a fire.

What We Will Do

EIDorado will provide a procedure to check the cable and material required to insulate and secure the cable at no cost to you. EIDorado will also reimburse you for the time to perform the work necessary to correct the issue.
