GM Upcoming Do Not Drive Advisory

GLOBAL SAFETY FIELD INVESTIGATIONS

DCS6773

URGENT - DISTRIBUTE IMMEDIATELY

Date: January 26, 2024

Subject: GM Upcoming Do Not Drive Advisory

To: All General Motors Dealers

This is to make Dealers aware that GM intends to notify owners of certain 2003 to 2004 model year Pontiac Vibe vehicles of a "Do Not Drive" (DND) advisory for unrepaired/open VINs associated with three Takata airbag-related recalls filed in 2015. GM will be taking this action as we feel it is in the best interest of our customers. This GlobalConnect message will be updated in mid-February with more information and details about this subject.

Thank you for your efforts to provide world-class service to our GM customers.
