

FEBRUARY 2026

# STOP-DRIVE FOR ALL UNREPAIRED TAKATA AIRBAG EQUIPPED VEHICLES

## WHAT

FCA US LLC urges U.S.-market owners or custodians of certain model-year 2003-2016 Chrysler, Dodge, Jeep® and Ram vehicles with Takata airbag inflators that have been subject to a recall(s), but not yet repaired, to immediately stop driving their vehicles and have their vehicles repaired at no cost.

## WHY

The company is issuing this Stop-Drive directive to accelerate the repair of affected vehicles to safeguard owners, their families and the general public from possible serious injury or even death.

## COST

No cost to the dealer or the customer!

## HOW

- Customers may contact the call center to schedule (833-585-0144) the repair or may contact dealers directly.
- Dealers should arrange to have the vehicle towed into the dealership OR perform mobile repair at the customer's house. Dealers should not have customers drive vehicle or have dealer personnel drive the vehicle.
- Dealer should offer customers a rental car or alternate transportation if needed.
- All current instructions should continue to be used, including current LOPs – no change from current state.

## AFFECTED VEHICLES

- 2003–2016 Dodge Ram pickup trucks and Dodge Sprinter vans
- 2004–2009 Dodge Durango SUVs
