TO: All U.S. Ford and Lincoln Dealers

SUBJECT: DEMONSTRATION / DELIVERY HOLD – Safety Recall 15S21
Certain 2005-2006 Model Year Ford GT and 2005-2014 Model Year Mustang Vehicles
Driver Airbag Inflator Replacement

AFFECTED VEHICLES

<table>
<thead>
<tr>
<th>Vehicle</th>
<th>Model Year</th>
<th>Assembly Plant</th>
<th>Build Dates</th>
</tr>
</thead>
</table>

Affected vehicles are identified in OASIS and FSA VIN Lists.

REASON FOR THIS SAFETY RECALL
Takata has determined that the airbag inflator propellant wafers in some inflators may experience an alteration over time, which could potentially lead to an over-aggressive combustion in the event of a crash that requires airbag deployment. This potential condition could create excessive internal pressure when the airbag is deployed, which could result in the body of the inflator rupturing upon deployment increasing the risk of injury to occupants.

SERVICE ACTION
Before demonstrating or delivering 2005-2006 Ford GT and 2005-2012 Mustang vehicles, dealers are to replace the driver airbag inflator and return the original inflator for analysis. This service must be performed on all affected vehicles at no charge to the vehicle owner.

NOTE: All vehicles that were previously repaired under Safety Recall 14B09 will also require driver airbag inflator replacement, as directed by this safety recall.

OWNER NOTIFICATION MAILING SCHEDULE
Parts to repair this condition are currently not available in sufficient quantities to service all of the affected vehicles. Therefore, to ensure an ample supply of parts is available, owners of affected vehicles will be notified in four separate mailings. Mailing will begin by May 16, 2016, following the priority established by the National Highway Transportation Safety Administration (NHTSA). Dealers should repair any affected 2005-2006 Ford GT and 2005-2012 Mustang vehicles that arrive at their dealerships, whether or not the customer has received a letter.

PLEASE NOTE:
Federal law requires dealers to complete this recall service before a new vehicle is delivered to the buyer or lessee. Violation of this requirement by a dealer could result in a civil penalty of up to $7,000 per vehicle. Correct all vehicles in your new vehicle inventory before delivery.

QUESTIONS & ASSISTANCE
For questions and assistance, contact the Special Service Support Center (SSSC) via the SSSC Web Contact Site. The SSSC Web Contact Site can be accessed through the Professional Technician Society (PTS) website using the SSSC link listed at the bottom of the OASIS VIN report screen or listed under the SSSC tab.

Sincerely,

Michael A. Berardi
OASIS ACTIVATION
OASIS was activated on June 4, 2015.

FSA VIN LISTS ACTIVATION

NOTE: Your FSA VIN Lists may contain owner names and addresses obtained from motor vehicle registration records. The use of such motor vehicle registration data for any purpose other than in connection with this recall is a violation of law in several states, provinces, and countries. Accordingly, you must limit the use of this listing to the follow-up necessary to complete this recall.

STOCK VEHICLES
- Correct all affected units in your new vehicle inventory before delivery.
- Use OASIS to identify any affected vehicles in your used vehicle inventory.

SOLD VEHICLES
- Owners of affected vehicles will be directed to dealers for repairs.
- Immediately contact any of your affected customers whose vehicles are not on your VIN list but are identified in OASIS. Give the customer a copy of the Owner Notification Letter (when available) and schedule a service date.
- Correct other affected vehicles identified in OASIS which are brought to your dealership.

TITLE BRANDED / SALVAGED VEHICLES
Affected title branded and salvaged vehicles are eligible for this recall.

ADDITIONAL REPAIR (LABOR TIME AND/OR PARTS)
Additional repairs identified as necessary to complete the FSA should be managed as follows:
- For vehicles within new vehicle bumper-to-bumper warranty coverage, follow existing warranty and policy guidelines for related damage claims. No SSSC approval is required for these vehicles:
  - Ford vehicles – 3 years or 36,000 miles
- For vehicles outside new vehicle bumper-to-bumper warranty coverage, submit an Approval Request to the SSSC Web Contact Site prior to completing the repair.

OWNER REFUNDS
Refunds are not approved for this program.

RENTAL VEHICLES
The use of rental vehicles is not approved for this program.
CLAIMS PREPARATION AND SUBMISSION

- Enter claims using Direct Warranty Entry (DWE) or One Warranty Solution (OWS).
  - DWE: refer to ACESII manual for claims preparation and submission information.
  - OWS: when entering claims in DMS software, select claim type 31: Field Service Action.
    The FSA number (15S21) is the sub code.

**NOTE:** The serial number of the new airbag inflator must be provided to Ford for the claim to be processed. The Technical Information in this bulletin advises technicians to document the new airbag inflator serial number on the repair order.

- Enter the 13 character serial number of the new airbag inflator in the claim as follows:
  - For claims submitted using DMS or OWS on-line, enter the serial number in the Test Results Section.
    - Select DTC REQUIRED MEASUREMENT OR RESULTS from the drop down list.
    - Enter the serial number in the CODE field.
  - For claims submitted using ACESII on-line, enter the serial number on the ACESII DIAG CODE ENTRY screen.
    - MIL ON = N
    - Enter the serial number in the OTHER field.

- Additional labor and/or parts must be claimed as related damage on a separate repair line from the FSA.
LABOR ALLOWANCES

<table>

</tr>
</tbody>
</table>

The DOR/COR number for this program is 51036.

To ensure highest risk vehicles are repaired as soon as possible, there will be a seed stock of part number 5R3Z-63043B13-C provided to dealers in High Absolute Humidity (HAH) states beginning the week of May 9, 2016 through early June 2016. Every dealer located in Alabama, Florida, Georgia, Louisiana, Hawaii, Mississippi, and Texas will receive parts equal to approximately 20% of the vehicles assigned to them on their FSA VIN Lists. Each of these dealers will receive at least one driver airbag inflator.

Part ordering for 2005-2006 Ford GT and 2005-2012 Mustang vehicles is expected to be opened the week of June 6, 2016, after the seed stock is completed. Parts may be ordered through normal order processing channels at that time. To guarantee the shortest delivery time, an emergency order for parts must be placed.

Dealers will need to access https://web.fsvinlists.dealerconnection.com to determine the total number of affected vehicles assigned to their dealership in order to calculate the number of parts that they will receive under the Seed Stock Program.

DEALER PRICE

For latest prices, refer to DOES II.
DEMONSTRATION / DELIVERY HOLD – Safety Recall 15S21
Driver Airbag Inflator Replacement

PARTS RETENTION AND RETURN
NOTE: All replaced airbag inflators must be returned in the new inflator box. If the new airbag inflator box is damaged or lost, contact Miguel Prigadaa at 210-250-5078 or SCTakataRestraints_International@xpo.com for a replacement box.

NOTE: RCRCs will only pick-up airbag inflators that have a corresponding FCS-700 Tag. Airbag inflators replaced under claims paid prior to May 10, 2016 must be returned using the previous shipping process.

- Part return instructions for dealers in the lower 48 United States:
  - Dealers must monitor their PEARS register. A FCS-700 tag will be generated for each airbag inflator on claims paid on or after May 10, 2016. Airbag inflators will be picked up by the RCRCs.
  - The RCRC will not pick up airbag inflators that are not properly packaged in the new inflator box.
  - Refer to Attachment IV for specific airbag inflator return instructions and documentation.
  - Disregard prepaid FedEx shipping instructions that may be included in new airbag inflator boxes. However, airbag inflators replaced under claims paid prior to May 10, 2016 must still be returned using the previous FedEx shipping process.

- Part return instructions for dealers outside of the lower 48 United States:
  - Continue to follow the previous FedEx airbag inflator return process of contacting Miguel Prigadaa at 210-250-5078 or Miguel.Prigadaa@email.xpo.com.

- Follow the provisions of the Warranty and Policy Manual, Section 1 “WARRANTY PARTS RETENTION AND RETURN POLICIES.”

EXCESS STOCK RETURN
Excess stock returned for credit must have been purchased from Ford Customer Service Division in accordance with Policy Procedure Bulletin 4000.
CERTAIN 2005-2006 FORD GT AND 2005-2014 MUSTANG VEHICLES — DRIVER AIRBAG INFLATOR REPLACEMENT

OVERVIEW

Takata has determined that the air bag inflator propellant wafers in some inflators may experience an alteration over time, which could potentially lead to an over-aggressive combustion in the event of an airbag deployment. This potential condition could create excessive internal pressure when the airbag is deployed, which could result in the body of the inflator rupturing upon deployment increasing the risk of injury to occupants. Dealers are to remove the affected airbag module from the vehicle and replace only the inflator portion of the airbag. The serial number from the new airbag inflator must be recorded on the work order. The replaced inflator will be placed into the packaging from the new inflator to be returned to Takata.

SERVICE PROCEDURE

⚠️ WARNING: Failure to follow the instructions and warnings in the Workshop Manual may result in injury.

DRIVER AIRBAG INFLATOR REPLACEMENT - MUSTANG AND FORD GT

1. Is the vehicle a 2005-2006 model year Ford GT or 2005-2012 model year Mustang?
   - Yes - Replace the driver airbag inflator. Proceed to step 2.
   - No - This procedure does not apply. Parts and repair instructions for 2013-2014 Mustang vehicles are expected to be available in the 4th quarter of 2016.

2. Remove the driver airbag from the vehicle. Please follow the Workshop Manual (WSM) procedures in Section 501-20B.

3. Set the airbag face down onto a surface that will not scratch or damage the airbag face.

⚠️ WARNING: Do not allow any debris on or around the airbag once the inflator is removed.

4. Remove and discard the four airbag inflator retaining nuts from the driver side airbag. See Figure 1.
5. **NOTE:** In order to verify the correct airbag inflator is installed, mark the old airbag inflator with a felt tip marker prior to removal.

Remove the airbag inflator and set aside for return shipping. See Figure 1.

**FIGURE 1**

NOTE: The serial number of the *new* airbag inflator must be provided to Ford for the warranty claim to be processed.

6. Record the 13 character serial number of the new airbag inflator on the repair order. See Figure 2.
7. Align the key on the driver airbag with the slot on the new inflator. Install the new inflator into the driver airbag. See Figure 3.

8. Install four new airbag inflator nuts onto the driver airbag. See Figure 3.
   - Tighten to 6.5 Nm (57 lb-in).

9. Re-install the driver airbag. Please follow the WSM Procedures in Section 501-20B.

10. Package the replaced inflator in the new part box and provide to the appropriate dealership personnel for part returns.
REGиональный центр по возврату компонентов (RCRC) будет только приобретать запасные части для AIRBAG-воздушных баллонов с соответствующим FCS-700 этикеткой, и замененный баллон должен быть упакован в упаковку нового баллона. FCS-700 этикетка будет сгенерирована для каждого воздушного баллона с заявками, внесёнными на или после 10 мая 2016 года.

**ВНИМАНИЕ:** воздушные баллоны без FCS-700 этикеток должны быть возвращены по предыдущему процессу; RCRC не принимают любые воздушные баллоны без FCS-700 этикеток.

**ВНИМАНИЕ:** если новый воздушный баллон поврежден или потерян, свяжитесь с Мигелем Пригадаа по телефону 210-250-5078 или SCTakataRestraints_International@xpo.com за заменой воздушного баллона.

Запечатайте и предоставьте оба следующих заполненных документа РСР:

1. **Способной Материалы Shipping Document (Page 2)**
   a. В пустую ячейку Shipper, введите ваше имя дилера и адрес.
   b. В пустую ячейку Receiver, введите адрес регионального центра по возврату компонентов.
   c. В пустую ячейку Number/Type of Package, введите количество упакованных баллонов.
   d. В пустую ячейку Weight, введите общую вес упаковки всех баллонов.
   e. В нижней части опасного материалов Shipping Document, заполните Shipper’s Certification.

Shipper’s Certification (49 CFR 172.204): This is to certify that the above named materials are properly classified, described, packaged, marked and labeled and are in proper condition for transportation according to the applicable regulations of the Department of Transportation.

NAME: ___________________________ SIGNATURE: ___________________________ DATE: ________
GUIDE 171

SUBSTANCES (LOW TO MODERATE HAZARD)

FIRE OR EXPLOSION
- Some may burn but none ignite readily.
- Containers may explode when heated.
- Some may be transported hot.

HEALTH
- Inhalation of material may be harmful.
- Contact may cause burns to skin and eyes.
- Inhalation of Asbestos dust may have a damaging effect on the lungs.
- Fire may produce irritating, corrosive and/or toxic gases.
- Some liquids produce vapors that may cause dizziness or suffocation.
- Runoff from fire control may cause pollution.

PUBLIC SAFETY
- CALL EMERGENCY RESPONSE Telephone Number on Shipping Paper first. If Shipping Paper not available or no answer, refer to appropriate telephone number listed on the inside back cover.
- As an immediate precautionary measure, isolate spill or leak area in all directions for at least 50 meters (150 feet) for liquids and at least 25 meters (75 feet) for solids.
- Keep unauthorized personnel away.
- Stay upwind.

PROTECTIVE CLOTHING
- Wear positive pressure self-contained breathing apparatus (SCBA).
- Structural firefighters’ protective clothing will only provide limited protection.

EVACUATION
Spill
- See Table 1 - Initial Isolation and Protective Action Distances for highlighted materials. For non-highlighted materials, increase, in the downwind direction, as necessary, the isolation distance shown under “PUBLIC SAFETY”.

Fire
- If tank, railcar or tank truck is involved in a fire, ISOLATE for 800 meters (1/2 mile) in all directions; also, consider initial evacuation for 800 meters (1/2 mile) in all directions.

EMERGENCY RESPONSE

FIRE
- Small Fire
  - Dry chemical, CO₂, water spray or regular foam.
- Large Fire
  - Water spray, fog or regular foam.
  - Do not scatter spilled material with high pressure water streams.
  - Move containers from fire area if you can do it without risk.
  - Dike fire-control water for later disposal.
- Fire Involving Tanks
  - Cool containers with flooding quantities of water until well after fire is out.
  - Withdraw immediately in case of re-ignition sound from venting safety devices or discoloration of tank.
  - ALWAYS stay away from tanks engulfed in fire.

SPILL OR LEAK
- Do not touch or walk through spilled material.
- Stop leak if you can do it without risk.
- Prevent dust cloud.
- Avoid inhalation of asbestos dust.
- Small Dry Spill
  - With clean shovel place material into clean, dry container and cover loosely; move containers from spill area.
- Small Spill
  - Take up with sand or other non-combustible absorbent material and place into containers for later disposal.
- Large Spill
  - Dike far ahead of liquid spill for later disposal.
  - Cover powder spill with plastic sheet or tarp to minimize spreading.
  - Prevent entry into waterways, sewers, basements or confined areas.

FIRST AID
- Move victim to fresh air.
- Call 911 or emergency medical service.
- Give artificial respiration if victim is not breathing.
- Administer oxygen if breathing is difficult.
- Remove and isolate contaminated clothing and shoes.
- In case of contact with substance, immediately flush skin or eyes with running water for at least 20 minutes.
- Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.
