Subject: Upcoming Safety Recalls Affecting Certain Mitsubishi Vehicles

On May 22, 2015, MMNA submitted to the National Highway Traffic Safety Administration (NHTSA) two separate Defect Information Reports regarding certain Mitsubishi vehicles.

1) SR-15-004 – ABS Hydraulic Unit

Approximately 75,000 MY 2006 - 2009 Eclipse and MY 2007 – 2009 Eclipse Spyder vehicles built April 20, 2005 to February 13, 2009 are equipped with an ABS hydraulic unit that is susceptible to corrosion due to a reaction between the brake fluid and the surface treatment on the internal valves. If this occurs and the ABS hydraulic unit is activated, one or more of the valves may seize at some position. If one or more of the valves were to seize, the brake pedal stroke will increase and braking performance may be reduced.

2) SR-15-005 – Passenger Side Sun Visor

Approximately 305,000 MY 2000 - 2005 Eclipse and MY 2001 – 2005 Eclipse Spyder vehicles built April 5, 1999 to December 17, 2004 are equipped with a passenger side sun visor that when in the down position, may potentially contact the passenger frontal air bag during air bag deployment. Depending on the position and the angle of the passenger side sun visor in the down position, the deploying passenger frontal air bag may remove the passenger side sun visor, propelling it rearward. The passenger side sun visor could strike the passenger seated in the front passenger seat, increasing their risk of injury.

MMNA is preparing to launch these two safety recall campaigns, and you will receive a formal/official dealer notification when these campaigns are launched. You are receiving this advance, informal letter because:

- 1) NHTSA will announce the recall on their website shortly after receipt of our Defect Information Reports, and MMNA wants to assist you in handling any customer inquiries you may receive regarding this recall.

In the event you receive any direct customer inquiries regarding this issue, please feel free as necessary to refer them to the MMNA Customer Relations Hotline at (888) 648-7820. We appreciate your patience while we make the necessary preparations to launch these recalls.

Sincerely,
Mitsubishi Motors North America, Inc.
