Attention: All Dealer Principals

Kia Motors America, Inc. will be conducting a Voluntary Safety Recall Campaign to replace the stop lamp switch in certain 2011 MY Kia Sportage vehicles produced from March 7, 2011 through June 8, 2011. The stop lamp switch may experience interruption in the electrical current flow through the switch contacts. This condition could potentially result in intermittent operation of the cruise control feature, the intermittent illumination of the ESC indicator lamp or interfere with brake light illumination.

The Technical Service Bulletin that provides vehicle repair procedures, affected VIN production range, and warranty claim information will be posted on the Kia Global Information System (KGIS) at www.kiatechinfo.com on **July 6, 2015**.

Your Service Manager was sent a copy of the owner notification letter and a Q&A guide for campaign questions both of which describe the issue and information on how to access the list of retail 2011 MY Sportage vehicles

NHTSA ADVISORY: It is a violation of Federal law for a dealer to deliver a new motor vehicle covered by this notification under a sale or lease until the defect is remedied.
