Dear Valued Starcraft Dealer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Defect Involved

Starcraft has decided that certain Model Year 2014 and 2015 AR-One travel trailers and 2016 Comet Hard sided Camping Trailers manufactured with the Extreme Package Option fail to comply with Federal Motor Vehicle Safety Standard number 120, "Tire selection and rims and motor home/recreation vehicle trailer load carrying capacity information for motor vehicles with a GVWR of more than 4,536 kilograms (10,000 pounds)" Effected units were manufactured June 3, 2013 through February 6, 2015. The Federal Id label and Tire Label incorrectly note the tire size as ST205/75R 14C when the correct tire size on the trailer is "**LT235/75R 15C**". Incorrect tire size could lead to excessive wear and may cause instability in towing of the travel trailer which could contribute to vehicle crash causing personal injury or property damage.

The remedy for the effected vehicles is for Starcraft to reprint and reissue all labels noting the correct tire size as "**LT235/75R15C**". Enclosed with this notification are the corrected labels that must be placed on the effected units that are currently in your inventory. Our records show the following are currently stock units at your dealership:
