NISSAN BULLETIN

Fuel Tank Assembly Voluntary Safety Recall Campaign

Reference: PC403
Date: October 16, 2015

Attention: Dealer Principal, Sales, Service & Parts Managers

A STOP SALE CONDITION IS IN EFFECT.

Affected Models/Years:	Affected USA Population:	Dealer Inventory:	SERVICE COMM Activation date:
MY13-15 Altima 3.5 (equipped with V6 engine)	28,198	361	October 16, 2015

******* Campaign Summary *******

Nissan is conducting a Voluntary Safety Recall Campaign on approximately 28,198 MY2013-15 Nissan Altima 3.5 vehicles (equipped with V6 engine) manufactured at the Smyrna, TN and Canton, MS plants between March 27, 2012 and September 9, 2015 to address a potential fuel tank assembly issue.

Some of the affected vehicles might contain fuel tanks with an out of-specification dimension at the opening for the fuel sending unit. If this condition is present, the H-seal between the sending unit and fuel tank can possibly displace during a severe frontal crash. To remedy this issue, Nissan dealers will install a special retainer ring to help the H-seal to seat properly between the fuel tank and the fuel sending unit.

Nissan is committed to a high level of customer safety, service and satisfaction and is working with dealers to provide an outstanding ownership experience to Altima owners.

IMPORTANT: It is a violation of Federal law for retailers to sell or deliver vehicles in their inventory covered by this notification until the campaign action is performed.

******* What Dealers Should Do*******

1. Verify if vehicles are affected by this Voluntary Safety Recall Campaign using Service Comm I.D. **PC403.**
2. Dealers should not sell, lease, trade, rent or loan any vehicles in dealer inventory affected by this recall campaign until after the vehicle has been repaired.
3. Retail customers can continue to drive their vehicle at their discretion. Rental will be available under the campaign until parts and repairs are available.
4. Repair the vehicle using repair procedure **NTB15-090**, included with this announcement, and submit the appropriate warranty claim to close the campaign in service comm.

***** Release Schedule *****

Parts	<ul style="list-style-type: none"> A part restriction is in effect, parts are available via the parts order form included with this announcement.
Repair	<ul style="list-style-type: none"> NTB15-090 The campaign bulletin will be available on ASIST, NNAenet, and Dealer 360 in the recalls and service campaigns forum on October 16th, 2015.

***** Dealer Responsibility *****

It is the dealer's responsibility to check Service Comm using the appropriate Campaign I.D. for the campaign status on each vehicle falling within the range of this voluntary safety recall campaign which for any reason enters the service department. This includes vehicles purchased from private parties or presented by transient (tourist) owners and vehicles in dealer inventory. If a VIN subject to this recall campaign was part of a dealer trade, the letter associated with that VIN should be forwarded to the appropriate dealer for service completion.

Frequently Asked Questions (FAQ):

Q. Is this a safety recall?

A. Yes, a stop sale is in effect.

Q. What is the reason for safety recall?

A. Some of the affected vehicles, might contain fuel tanks with an out of-specification dimension at the opening for the fuel sending unit. As a result, if this condition is present, the H-seal between the sending unit and fuel tank can possibly displace during a severe frontal crash.

Q. What will be the corrective action for this voluntary safety recall campaign?

A. Dealers will install a retainer ring between the fuel sending unit and fuel tank to help the H-seal to seat properly between the fuel tank and the fuel sending unit. This will prevent potential H-seal movement in a severe crash.

Q. How long will the corrective action take?

A. This service, free for parts and labor, should take approximately 1 hour to complete. However, your Nissan dealer may require your vehicle for a longer period of time based upon their work schedule.

Q. When will vehicle owners be notified?

A. Nissan will notify all owners of affected vehicles in November, 2015, asking them to bring their vehicle in for repair.

Q. Are parts readily available?

A. Yes. A parts order form is available to order parts as needed.

Q. Is my vehicle safe to drive?

A. Yes, customers can continue to drive their vehicle at their discretion. However, if your vehicle is subject to this recall, you should make arrangements to have your vehicle remedied as soon as possible.

Q. Have there been any injuries or fatalities related to this problem?

A. Nissan is not aware of any reports of leaks, accidents, or injuries associated with this issue – this issue was detected during a crash test in a lab environment.

Q. Will a rental vehicle be provided while the dealer is servicing the vehicle?

A. No. Alternate transportation is not provided under Nissan’s warranty while your vehicle is being serviced.

- If a customer does not want to drive their vehicle, rental will be available under the campaign for affected vehicles prior to parts arrival.

EXPENSE CODE	DESCRIPTION	AMOUNT
502	Rental Expense	\$120 (Max)

Q. I have lost confidence in the vehicle. Will Nissan replace or repurchase the vehicle?

A. The repair will fully correct this condition. As the condition will be corrected, there is no basis for repurchasing or replacing your vehicle.

Q. Is there anything owners can do to mitigate the condition?

A. No, except to make arrangements to have your vehicle remedied as soon as possible after they receive notification of the recall.

Q. Is there any charge for the repair?

A. No, the repair will be performed for the customer free of charge for parts and labor.

Q. Will I have to take my vehicle back to the selling dealer to have the service performed?

A. No, any authorized Nissan dealer is able to perform the recall campaign.
For Consumer Affairs: Please inform us of the dealer where you would like to have the corrective action completed.

Q. What model year vehicles are involved?

A. MY2013-15 Altima 3.5 (L33) vehicles equipped with V6 engine and produced at Smyrna, TN and Canton, MS plants between March 27, 2012 and September 9, 2015 are affected.

Q. Are any other models involved?

A. Certain MY2016 Nissan Maxima (A36) vehicles manufactured at the Smyrna, TN plant between February 10, 2015 and August 24, 2015 are also affected. Additionally, ~240 MY2016 Altima 3.5 vehicles sold outside the U.S. are affected.

Q. How many vehicles are involved in the campaign?

A.

<u>Region</u>	<u>Altima</u>	<u>Maxima</u>	<u>Total</u>
